CREATIVE AUTOMATIONS

ACCESS CONTROL
AND AUTOMATION.

MADE IN ITALY

CREATIVE COMPANY

Founded in Italy, GIBIDI has been manufacturing and distributing high quality automation equipment for over 45 years. Since 1972, GIBIDI had designed and manufactured with quality at the very centre of its ethos. This ethos is reflected in our products and the service we strive to provide.

GIBIDI products are manufactured at two plants: Our Poggio Rusco facility serves as our centre for mechanical design, assembly and testing, whilst at Casale Litta, our team is focused on the design and production of our electrical components and equipment. All in all, GIBIDI has in excess of 6,000 square meters dedicated to bringing our Creative Automations to life.

Today, we have a global reach, with active subsidiaries and specialised distributors in over 40 countries

CREATIVE MISSION

GIBIDI mission is creating freedom of movement.

Get in and out, open and close gates, garages and all the entrances with a simple gesture in complete comfort.

Freedom of movement for all: end users, dealers, installers.

CREATIVE EVOLUTION

We look after the requests of the market and the evolution of users need, trying always to be ahead of them.

For this reason we continuously invest in research and development of new solutions to simplify the life of our customers through cutting-edge technologies and services.

CREATIVE KNOW-HOW

A history of more than 45 years reflects in products quality and technological solutions of GIBIDI automatic devices: for instance the hydraulic system with vacuum-pack circuit, that grants the inalterability and reliability of performances over time, that is an exclusive characteristic in the market.

Thanks to our knowledge and technical mastery, we have been able to develop new services, as the direct and customized technical training for our partners, the warranty for 3 years on our products and a high level technical service.

CREATIVE AUTOMATIONS

GIBIDI creates the best automations thanks to a team of true, enthusiastic and enterprising people, always by customers side and ready for future challenges.

No fears, but always smiling.

• MINNOW

Irreversible electromechanical gearmotor in 230 Vac for sliding gates of medium size and weight (up to 500 Kg). For residential use.

• SL

Electromechanical irreversible gearmotor for sliding gates of small and medium size (up to 500 Kg). Suitable for residential use.

● PASS600

Irreversible electromechanical gearmotor in 230 Vac for sliding gates of medium size and weight (up to 800 Kg), for residential and heavy use.

● PASS1200

Irreversible electromechanical gear motor in 230 Vac and 380 Vac three-phase for sliding gates of big size and weight (up to 2.500 Kg), for heavy duty.

● KUDA

Electromechanical operator in 24 Vdc with encoder, for swinging gates of small size and weight, for residential use.

● AGO

Electromechanical operator in 230 Vac and 24 Vdc with encoder, for swinging gates of medium and big size, for residential and heavy use.

● SERRA

Electromechanical operator in 24 Vdc with encoder, for swinging gates of medium and big size, for heavy use.

● SNAPPER

Electromechanical operator in 24 Vdc with encoder, for swing gates of small size and weight, for residential use.

● ART

Electromechanical operators in 230 Vac and 24 Vdc with articulated arm, for swinging gates of medium size and weight, for residential and heavy use.

● TOP EVO

230 Vac hydraulic operators, dedicated to heavy, medium and large size swing gates. Suitable for both residential and intensive use.

● FLOOR

Underground hydraulic operators in 230 Vac and 24 Vdc for swinging gates of medium dimensions and weight, for residential and heavy use.

● GROUND

Underground electromechanical operators in 230 Vac and 24 Vdc, for swinging gates of medium dimensions and weight, for residential and intensive use.

● TAIMEN

Automated drive unit in 24 Vdc for overhead and sectional doors, of little and medium dimensions, for residential use.

● AUTOBOX

Electromechanical operator in 230 Vac and 24 Vdc for counterweight overhead doors of little and medium dimensions, for residential and condominium use.

● MPS

Central gearmotors for rolling shutters, for residential and commercial use.

● RUNNER M/RM

The range of M and RM series motors (Bidirectional Radio Mechanical) is suitable for residential and commercial use.

● ● RUNNER RE

The RUNNER RE range of bidirectional electronics radio controlled motors is suitable for residential and commercial use.

● ● BARR500

Electromechanical barriers in 24 Vdc for passages up to 6 m for intensive use.

● DPT280

Automatic rising bollards in 230 Vac with hydraulic or electromechanical technology.

● DPT290K

Automatic rising bollards in 230 Vac with hydraulic technology for specific use in perimeter security and controlled driveways.

● ENTRA ES

ENTRA ES operators for sliding doors are suitable for any type of installation; even the most demanding. Standing out for their modularity, mechanical and electronic characteristics.

● ENTRA EB

The swing door operator is designed to simplify the installation and programming procedure.

● CONTROL

A complete range of electronic control units, analogic or digitally controlled, for a specific use or suitable to all kind of automations. Developed and made in GIBIDI.

● ACCESSORIES

A range of products composed by transmitters, control boards, photoelectric cells, flashing lights... to complete your installation in security.
